

CRANE TRAINING USA

MANAGEMENT & SUPERVISION TRAINING

Crane Training USA provides Overhead Hoist and Crane Management & Supervision Training, designed to meet code requirements and expand Overhead Crane knowledge.

Who should attend?

- Plant Managers
- Production Managers
- Safety Department Personnel
- Purchasing Department Personnel
- Engineering Personnel

Course session includes:

- Classroom Training with Training Manuals Covering Hoists, Cranes, Slings and Below-the-Hook Devices
- OSHA Codes and Inspection Forms Manual
- Question and Answer Periods
- Written Testing
- Evaluation of 100's of Sample Parts
- Certification and Cards

Can your personnel answer these questions?

- Is your Crane Service Company selling you equipment that does not meet the crane codes and standards?
- What questions should you ask your Crane Service Company to determine if their personnel are qualified to inspect your equipment?
- Are illegal devices being used for lifting, in your facility?
- What OSHA safety precautions must be taken before working on a crane?
- What training is required before a person is permitted to operate a hoist or crane?
- How long must you keep your inspection documents?
- Do your personnel perform the legally required inspections?

What will be learned?

- Responsibilities of Management and Supervision
- How to Evaluate your Crane Service Company
- OSHA Inspection Requirements
- Proper Inspection Types and Frequency Required
- Required Preventative Maintenance Requirements
- Inspection Guidelines - To Ensure OSHA Compliance
- Record Keeping and Documentation Requirements
- Proper Use of Hoists, Cranes, Slings and Below-the-hook Devices
- Specialized Lock-out Procedures for Overhead Hoist and Cranes
- Proper Terminology
- Injury Statistics

Course Length

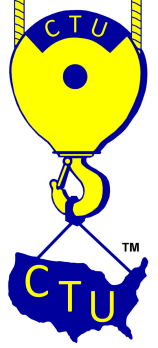

Three - 8 to 10 hour days
Depending on equipment used
and number of attendees
